## WORK EXPERIENCE

### FREELANCE | AGENCIES

FULL-STACK DEVELOPER  
Feb 2021 - Present | Remote  
Create neat and interactive tailored websites. I usually work with agencies, startups, and other freelancers such as Talents by MYM ImageWorks, and RADIO TELEVISION SUISSE (RTS).

### STUDENT HELP

TEACHING ASSISTANCE  
Fall 2022 | Lahore, Pakistan  
Help students troubleshoot technical issues they encounter while working on web development projects. Offer guidance on using development tools, software, and frameworks commonly used in web development.

### CHILD PROTECTION & WELFARE BUREAU

EDUCATION TECH LEADERSHIP  
Summer 2019 | Gujranwala, Pakistan  
Collaborate with CPWB management and stakeholders to develop a comprehensive computer education program tailored to the specific needs and interests of the rescued children

## TECHNICAL PROJECTS

### STANDARD FILE EXPLORER | GITHUB

Fall 2022 | Lahore, Pakistan

- Build React and Node.js/Express.js web application for managing local directories.
- Implement Add, Update and Delete features.
- Clean UI experience to show front-end designing & interaction.

### SOUND SORTING VISUALIZER | PLAY | GITHUB

Spring 2022 | Gujranwala, Pakistan

- Build HTML/JavaScript app for visualizing real-time sorting algorithms and sound effects synced with the sorting process.
- Implement Bubble, Quick, Merge, and Selection Sort Algorithms.

### SEE MORE PROJECTS | GITHUB

Spring 2021 - Present | Lahore, Pakistan  
Click on the GitHub link above to check the Computer Science, Front-end, and Back-end Development projects.

## BUSINESS & SIDE PROJECTS

### TEXT REPLIER CHATGPT API EXTENSION | GITHUB

Winter 2022 | Client Project | Geneva, Switzerland

- Worked for **Chantal Lang, Former CEO of Projects Informatics and Radio Television Systems (RTS)**.
- Chrome extension of ChatGPT OpenAI API that supports multi-language email replies.
- User selects email text, right-clicks, and chooses reply tone: very positive, slightly positive, slightly negative, very negative.

### WEBSITE DETECTOR TOOL | GITHUB

Summer 2022 | Client Project | Hong Kong, China

- Worked for **Calv, Tech Interest**.
- Build a tool using PHP and MySQL for the client, that monitors real-time changes (refresh every selected second given by user).
- The list of URLs can be updated by the user and stored URL in the database. Also, delete the desired list of URLs from it.

### WEB ANIMATED BANNER ADS | GITHUB

Fall 2021 - Spring 2022 & Spring 2023 | Client Project | Singapore

- Worked for **Beatrice Ng Beatz, Co-Founder at Talents by MYM ImageWorks**.
- Create flex banner animations from PSD to HTML Templates with Webkits animations for different screen layouts.
